STAMENT OF INFORMED CONSENT

NOTICE: State law allows any person to provide nutritional advice or give advice concerning proper nutrition--which is the giving of advice as to the role of food and food ingredients, including dietary supplements. This state law does NOT confer authority to practice medicine or to undertake the diagnosis, prevention, treatment, or cure of any disease, pain, deformity, injury, or physical or mental condition and specifically does not authorize any person other than one who is a licensed health practitioner to state that any product might cure any disease, disorder, or condition.

I, Antonieta Camacho, am an Herbalist and natural health educator. The state of California does not at this time license Herbalists. I am not a medical doctor, nor I diagnose, prescribe, or claim to cure any condition. My services are not intended to be substituted for the care of a licensed medical doctor. I strongly advise you to always seek the advice of your physician or qualified health care practitioner prior to starting any new treatment and/or changing current treatment. Any information or herbal supplement provided by me or on behalf of Moongazing Herbal Apothecary do not create a practitioner – patient relationship and is not intended to constitute medical treatment or consultation. In addition, any document or conversations are neither intended nor implied to be a substitute for professional medical advice. You assume full responsibility for using the information and herbal supplements provided by me or Moongazing Herbal Apothecary, and you understand and agree that I’m not responsible or liable for any claim, loss or damage resulting from its use by you or any person.

Any questions asked by me are solely to assess the nutritional status of your health, and not for the diagnosis of disease or other pathologies, though it may help us in our goal of furthering your health if we understand a diagnosis given by a licensed practitioner. My recommendations are only for the purpose of optimizing your nutritional state and teaching about the historical uses of herbs.

.....

“I, the undersigned, have read and agree with the above statements and wish to participate in this relationship with Antonieta Camacho. I understand the herbal and related information I receive is intended for personal guidance and education only, not to treat or diagnose any condition, nor to be representative as a practice of medicine. No guarantees will be made to me in regards to a cure of any condition from which I suffer. I request the herbalist’s suggestions, recognizing that I am free to act upon or disregard the recommendations as I choose, as such, release her of all responsibility for my actions and any consequences thereof, both now and in the future”
